Republicans: Students must vote Democrat

•Continued From Page 54

Going through with the pregnancy and giving the child up for adoption would ruin their college years. Yet if a Republican were elected President, he would be bound to fight to take the right of choice away from women.

Then there is the GLBA (Gay, Lesbian, Bisexual and Allies). If Bob Dole can't even accept money from

a homosexual organization, it is not hard to imagine what he'll try to do in office.

Finally, there are our children. The Republicans, led by Dole, will continue to take away the programs that have started to level the playing field at the social level because these programs create a budget deficit.

But he'll add an extra \$16 billion to the defense budget, money the military itself says it doesn't need,

doesn't affect anything.

Dole says he's planning to request even more money to squander on defense because we need more guns and more planes.

And don't forget about Dole's tax break. Any measure brought by the Republicans will benefit only business owners and the wealthy.

To provide a tax break means either greater cuts in programs that help the working poor or a larger deficit.

Get it straight: The Republicans want government out of business, but they want government to rule your lives.

The Democrats want to regulate business and stay out of your personal life.

If students don't stand up and vote Democrat, they may find a degree even more difficult to attain.
