

Info fair raises diversity issue

Available programs to be introduced

FROM STAFF REPORTS

Conflicts. Concerns. Is there a place to go for resolution?

In an effort to raise student awareness of the diverse education resources available, the department of Human Relations and Resources is hosting an information fair Friday from 11 a.m. to 1 p.m. on the Glenn Terrell Mall in front of the CUB.

"We've had a lot of controversy on campus lately," said Sumeer Singla, a work-study intern for diversity education. "We want people to realize that there are resources available to help resolve some of those conflicts."

Each of the eight programs in the department will have display tables set up promoting its services and organizations.

The fair provides a wonderful opportunity for the community to fully realize the opportunities that

are already available for them in regards to diversity," said Dr. Cindy Gallagher, director of the Diversity Education Program.

A free raffle at noon will highlight the afternoon. Sponsoring the event are several local community vendors who donated prizes and gift certificates.

The intention of the raffle is to use the tickets to create a database and mailing list for students and community members, said Singla. Participants will then receive new information about programs and services in the mail.

In addition, the CUB is sponsoring an outdoor barbecue.

"It's a matter of exposing the institution to the programs and services we have," said Ernestine Madison, vice provost for Human Relations. "We hope students will take advantage of the services and become more involved in all efforts to support diversity."

"We hope students will take advantage of the services and become more involved in all efforts to support diversity."

ART/TECHNOLOGY/CULTURE

A Symposium Inaugurating the 1996-97 Series of the Visual, Performing and Literary Arts Committee

September 27, 1996

CUB Ballroom, Washington State University

9:10 am Gene Youngblood
"The Challenge to Create on the Same Scale as We Can Destroy"

Gene Youngblood, internationally known theorist of electronic media arts and politics, discusses the role of the performing and visual arts in interactive multimedia telecommunication, using the Electronic Cafe International network as a case study.

10:10 am Jennifer Hall
"The New Culture of Technology and the Commonwealth of a Global Arts Community"

Jennifer Hall, artist and Founding Director of the Do White Studio, invites you to imagine a global information system produced by an industry that respects a world of differences, a digital culture that supports indigenous arts, a content-driven cyberculture, a unified arts community that develops new forms of communication!

11:10 am Antonio Muntadas
"Recent Projects: Concept, Content, Medium, Production, Distribution and Audience"

Multimedia artist Antonio Muntadas discusses his most recent projects--The File Room, Des/Aparicions, On Translation--which continue his investigation of power structures and their effects on culture, politics, economics and personal relations.

1:10 pm Muriel Magenta
"World's Women On-Line!"

Muriel Magenta, Professor of Art and Resident Artist Fellow at the Institute for Studies in the Arts at Arizona State University, addresses social, psychological and artistic issues through the use of technology in a multi-media project with global implications-- "World's Women On-Line!"

2:10 pm Margaret Morse
"Virtually Wet: Plunging into Immersive & Interactive Art"

Different genres of electronic art offer different kinds of virtual worlds and varying degrees of immersion and of interaction. Margaret Morse, cyberarts critic and Associate Professor of Theater Arts at the University of California Santa Cruz, introduces us to specific art pieces belonging to a range of electronic art forms.

7:00 pm Panel: "Art, Technology and Culture"
Moderators: Deborah Haynes and Mike Mandel, Department of Fine Arts

Our symposium participants join in a wide-ranging discussion of the issues of access, diversity, the control of technology, the use of new technologies, and how these technologies affect our culture.

The Symposium is supported by The Office of the Provost
